

Squier®

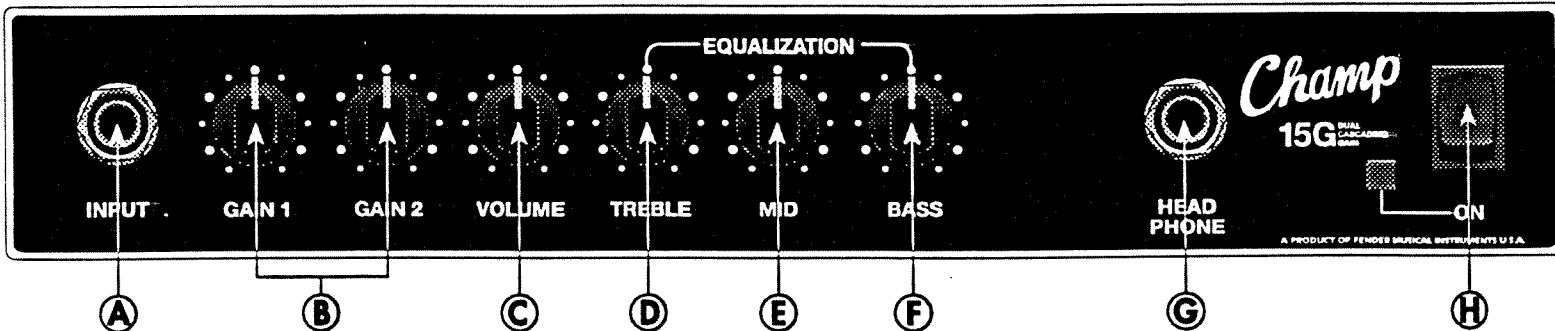

Champ® 15G

TYPE: CPR 1

Owner's Manual

P/N 048826

Champ 15G Front Panel Functions

- A. **INPUT**- Connection for instrument.
- B. **DUAL CASCADING GAIN CONTROLS**- Controls the sensitivity and preamp distortion threshold.
- C. **VOLUME**- Controls overall volume of sound output. For 'clean' sound, set VOLUME at 10 and GAIN 2 at 0. Adjust GAIN 1 for desired level. For overdrive sound, set GAIN 1 from 5 to 10 and GAIN 2 as desired. Adjust VOLUME for desired level. Different overdrive textures may be obtained by combining GAIN 1, GAIN 2, and VOLUME settings.
- D. **TREBLE**- Provides high frequency equalization as required.
- E. **MID**- Provides midrange frequency equalization as required.
- F. **BASS**- Provides bass frequency equalization as required.
- G. **HEADPHONE JACK**- Used to connect stereo headphones. Automatically turns off the internal speaker.
- H. **ON/OFF SWITCH**- Turns amplifier On and Off.
